Petersville Homestend Association.—A number of persons, of small means, finding it impossible to pay the excititant rates now being asked for apartments and houses in this city, and believing such increase of Rents will continue for years to come, thereby compelling them

pay the cost in this city, and believing such increase of Rents will continue for years to come, thereby compelling them to reside in small attic rooms, or damp basements in some low place in this city, endangering the lives of themselves and Smilite, have secured a tract of land on the New-Haven Railroad, in the town of New-Rochelle, which they intend to lay out into village plots.

The land secured contains many of the most beautiful building sites in the State. The scenery is of the most romantic character—bill and dale—which must naturally insure the health and pleasure to those who settle there. Upon this property are several Houses, Barns, &c., which, as they consider the moneyed man, inssectionise established for the benefit of workingmen, should not have a preponderating influence over the benefits to be derived from any improvements which may be on the property, they have determined shall not be offered for sale, but that each member shall have an equal channe to draw one of the houses without asy extra charge whatever.

Public Meetings will be held every MONDAY EVEN. ING, at 8 c'olock, at the American Hell, corner of Broadway and Grand st. Articles of Association and circulars can be bad grates of either of the officers.

Glasgaw. The well known raputation of this greatest of the mechanical and scientific Mugazines almost obviates the ne. cessity of any description of its merits. It has long enjoyed the proud distinction of being the leading periodical of its kind in the world. The work is copionally embellished with designs, illustrative of the most recent discoveries in Science and Mechanics. Each number contains in addition, from one to three large magnificent full sheet illustrations, or copper, explanative of its current text. Each number is a aithful pen and pencil reflex of the discoveries which have been made in Art, Sciences and Mechanica, since the issue which preceded it. This magnificent Periodical walks hand in hand, and step by step with Progress, in the broad avenues of Intelligence, Science and Mechanics. No written description can convey even a faint idea of its immeasurable superiority over every thing of its kind ever attempted. To he fairly appreciated, the work must be examined. FLOTIRING MILL. for SALE or to LET.—
The WATERLOO MILLS, situated on the Seneca and Cayoga Canal, is for sale or to let; possession can be had this spring. This Mill is situated in the midst of a fine wheat growing district, and can be supplied with grain by water from the Seneca and Cayoga Lakes, and also by Eric Canasi from the great wheat market of Buffalo and other ports on the Western Lakes. A publication can be made to B. SKAATS, Attorney-at-Law, Waterloo. FOR SALE or to LET-A never-failing Wa-

ter Power, suitable for any extensive manufacturing purposes, within an hour and a half of New-York, on the New-York and Eric Bailroad. On the premises are a Forge, with two bicomering five, tron cylinder blowers, and two bammers; a large mansion and several tenant houses, can be a large mansion and several tenant houses, or demanded in abundance, and Iron Ore of good quality in the vicinity. Also a Flouring Mill, with two run of stones doing a good beariness, with a quantity of good farming land, if required. Possession immediately. Inquire at No. 2 Cedar-at. IRON WORKS for SALE.—The Provi-

dence Iron Company, to close a concern, offer for alle their very extensive and complete establishment for manateturing Iron, structed on tide water, at Fox Point, in Providence.

These works have all been erected within seven years, are in good order, and ready to be put into immediate operation, and are equal to the production of it inns of iron into plates and bars per day.

Connected with the above is a Wire Mill, capable of running 8 tune of rods per day, for which there is a regular and increasing demand in Providence, at the present moment, at least equal to the entire production of the mill. Also, Reynoide's Patent Wrought Spike and Nail Machines, which will turn out 10 tune per day. Also a Cui Nail Mill, capable of turning cut 150 to 175 casks per day, and which could be casily arranged to double that product.

As this establishment was built for use, no expense was spared in having everything about it of the most perfect kind, and the inventory exhibits as complete an establishment, perhaps, as is to be found in New England.

It is thought that no place in the United States presents a better opening for the successful prosecution, by a practical man, of the manufacture of wire rods, iron, hale and spikes than the City of Providence, the center of a large and rapidly increasing manufacturing district, requiring for consumption the entire production of these works.

These works being on tide water, where the largest class of vessels which frequent our Bay can load and receive carges without lightering, allows of their receiving their supplies of coal and iron at the lowest rate of freight; and labur can at all times be had on as good terms as elsewhere in New England.

As it is supposed the purchaser would desire to examine the premises, further description is desired unprecessary.

New-England.

As it is supposed the purchaser would desire to examine the premises, further description is deemed unnecessary. The property will be sold cheap, and the terms of payment will be made easy.

If the above property is not previously sold, it will be offered at public anction, on WEDNESDAY, lith May next, at 12 o'clock M.

For an examination of the property apply to W. H. 1883.
